

Streamline your business processes & maximise margins: the complete solution for growing pub companies

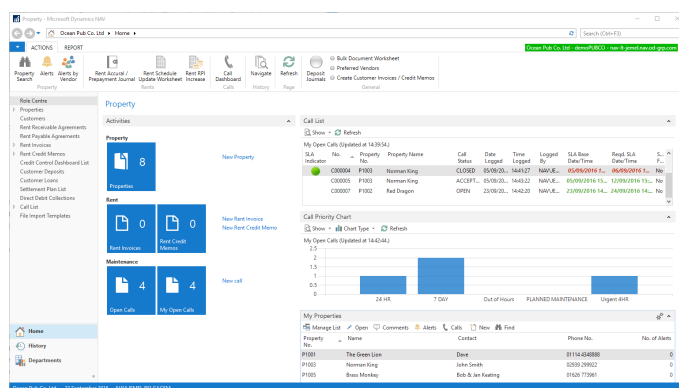

The Ocean Dynamics team have been implementing enterprise resource planning solutions specifically tailored for the drinks industry since the 1990's. Our customers include some of the biggest names in the industry, who benefit from our continued investment and our individual approach to support and implementation.

This product has now been specifically packaged to provide an affordable and easy to implement solution for growing pubcos with most customers up and running in just a few weeks. Providing visibility of your pub sales and profitability at the touch of a button, full mobile support and significantly reducing time spent on routine operations, this solution is the complete package for your growing pub company.

Functionality includes:

- Finance & reporting
- Fixed assets & accounts payable
- Banking & reconciliation, BACS payments
- Estate management – (property data, document management, statutory compliance)
- Epos integration
- Purchase document scanning & capture
- Call logging
- Preconfigured EDI – Proven to work with suppliers such as Carlsberg, Heineken, C&C, Bookers, Brakes, & Marstons.

The OD solution is fully integrated with finance, offers data capture of documents and is the only UK pub company solution certified for Microsoft Dynamics, providing peace of mind and investment protection for all our customers.
