

IS YOUR BUSINESS OUTGROWING YOUR ACCOUNTING SOFTWARE?

Tell-tale signs your business is ready for a more comprehensive business management solution

Systems are disconnected and information is siloed

Reporting is complicated and provides insufficient information

Manual processes result in duplicate entry and errors

Accounting occurs in Excel, not your financial system

Lack of workflows and audit trails puts your business at risk

From day one, Microsoft Dynamics 365 for Finance and Operations, Business edition makes ordering, selling, invoicing and reporting easier and faster

Connect your business

Make better decisions

Start and grow easily

Connect your people and processes like never before

Go from quote to cash without leaving your inbox. Easily export data to Excel and create outgoing documents directly in Word

Get a complete picture of your business and make informed decision with powerful reporting and custom dashboards

Work from a desktop, laptop, tablet, or phone with one experience that is consistent and secure

Automate and secure business processes with easy-to-create workflows and audit trails

Be ready for growth with a scalable solution in the cloud so it's easy to set up and manage.

Ocean Dynamics helps you configure Dynamics 365 to work just the way your business does. We have valuable experience and ready-to-go solutions for:

HOSPITALITY

RETAIL

SPORT

COMMERCIAL

This means:

Faster time-to-value

Costs kept in check
